Title V

PERMITS

The board was notified by FCCIP that Wayne Zavotka, 505 Tunnel Road, has applied for a building permit that reads as follows;

New addition of mud room, laundry and full bath with full basement underneath; new addition of double car garage; new deck added onto rear of house with 3 season porch; expansion of existing first floor bedroom into first floor bath space. Replacing kitchen cabinets and replacing existing single window with 3 windows.

The board agrees they may grant the permit without issue since DOPH regulations require a septic system inspection with a bedroom addition. Dave will talk to Health Agent, Lisa Danek Burke.

David Dvore, 75 Potter Road, applied for a permit to construct a bathroom over his garage, this requires no action from the BOH.
